New Horse Farm Management Module

HFM *HealthBook*™

THE JOCKEY CLUB
INFORMATION SYSTEMS
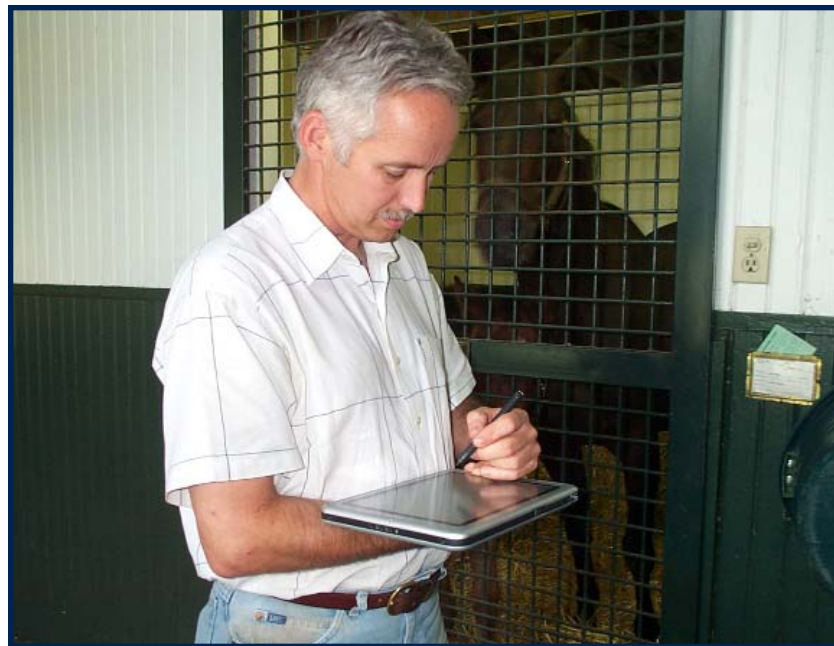

HFM *HealthBook*™

Our new Horse Farm Management module, HFM *HealthBook*™, will enable you to use a Tablet PC with its specially designed tablet pen to quickly and easily record breeding, health and teasing information in the barn, paddock or anywhere on the farm. Additionally, it provides farm managers immediate access to comprehensive reproductive and health history in the field.

The information input in the field is uploaded from the Tablet PC into our PC based Horse Farm Management program in just minutes. This eliminates duplicate work in the office such as re-entering information into the Horse Farm Management program and re-writing the information onto teasing charts, vet lists and other forms. As the developers of both Horse Farm Management and HFM *HealthBook*™, we have ensured that information is seamlessly updated between these systems without creation of intermediate or duplicate data

With nearly 20 years experience in development and support of Horse Farm Management software, you can be assured of our continued commitment to customer service and support.

For more information or a personal demonstration
please contact us at:

The Jockey Club Information Systems, Inc.
821 Corporate Drive • Lexington, KY 40503
(800) 333-1778 • (859) 224-2800

Three Easy Steps...

1. Information from the Horse Farm Management program is downloaded into HFM *HealthBook*™ on a Tablet PC.

2. The Tablet PC is taken into the barn, paddock or anywhere on the farm and exam results are quickly recorded in the HFM *HealthBook*™ with the tap of a special Tablet PC pen.

3. Information recorded in the HFM *HealthBook*™ is uploaded to the Horse Farm Management program in minutes.

• *Have access to comprehensive health information at your fingertip while anywhere on the farm.*

• *Avoid duplicate work and errors, save time!*

Mare Teasing Chart Screen

Information, including pedigree, breeding, health and teasing, is downloaded from the Horse Farm Management program (HFM) to a handheld Tablet PC

INFORMATION SYSTEMS

HFM *HealthBook*™

Tab control shows views of complete horse health history

The "Procedures" tab enables you to view the complete health history.

HFM *HealthBook*™

Adding a new exam procedure to a mare is quick and easy

For example,
To enter a Palp Exam:
- Tap the Palp code ('P' in this example)
- Tap on the day
- Pop up screen appears to enter the results of the palp

Recording the results of a palp is as easy as:
- Tapping the box for the left ovary (LO) or right ovary (RO)
- Selecting the results (all of the result codes are customized to your specifications)
